Thriving as a Learner

A student masterclass for high potential and gifted learners

Give your high potential students the tools to navigate challenge, build resilience and realise their potential at school and beyond.

Specialist student program for selective high schools and schools with identified HPG cohorts.

RESEARCH-INFORMED
Designed for the learning needs of high potential students

STAGE-SPECIFIC
Different focus for Stages 3, 4, 5 and 6

FLEXIBLE DELIVERY
Face-to-face at your school or online for your cohort

IMPACT-FOCUSED
Supports learning, wellbeing and talent development

What students gain

- Greater self-awareness
- Strategies for challenge and setbacks
- Improved self-regulation
- Healthier responses to perfectionism
- Confidence to seek feedback and support

Student voice

> *"It helped me understand why I sometimes get stuck and what to do about it."*

> *"I now feel more confident about challenging myself."*

Stage focus

Stage 3
Confidence and transition to new challenges

Stage 4
Identity, motivation and independence

Stage 5
Perfectionism, resilience and autonomous learning

Stage 6
High-stakes performance and sustained wellbeing

Program format

- 1-hour interactive masterclass per student group
  Usually delivered across a school day to multiple classes or year groups.
- Up to 30 students per session
  (to maximise discussion and interaction)
- Face-to-face at your school or online

Led by Dr Ruth Phillips

- 30+ years in education
- PhD in gifted education
- Extensive school and system experience
- Research-informed and practical
- Deep understanding of high potential learners and their learning needs

Bespoke options for your school

The program can be tailored to your school's context, priorities and student needs, including optional staff or parent sessions.
